Technical specification | BlowUp Mural

KEY INFORMATION

Timeline for key stages of execution ⁽¹⁾:

- **order:** by the 10th day of the month preceding the start of the mural execution, submit the request, including the start date of painting and location
- **information:** specify whether the mural should be standard or include non-standard elements
- **design / layout:** must be provided to the contractor 14 days before the start of execution
- **production files:** must be delivered no later than 10 days before the start of execution
- **execution time:** 5-10 days (dependent on the complexity of the design)

File format:

- *.PDF
- *.EPS / *.AI / *.CDR

Fonts:

- converted to vectors (outlined)

Layers:

- logo separately

Scale:

- graphics adjusted to the wall outline
- 1:10

Resolution:

- 72-120 DPI

Color pattern ⁽²⁾:

- key colors defined in the NCS/RAL palette
- digital proof provided along with the digital production file
- color accuracy is considered acceptable when proof parameters deviate no more than 15% from the digital design

Material:

- Facade paints by Dekoral (alternatively Tikurilla, Ralston, or other similar quality brands ⁽³⁾)

STRÖER

⁽¹⁾ For non-standard murals, e.g., those containing UV, fluorescent, neon, LED, or backlit elements, pricing and schedules will be prepared individually. Work schedules may be adjusted, and mural execution may be extended if weather conditions prevent painting.

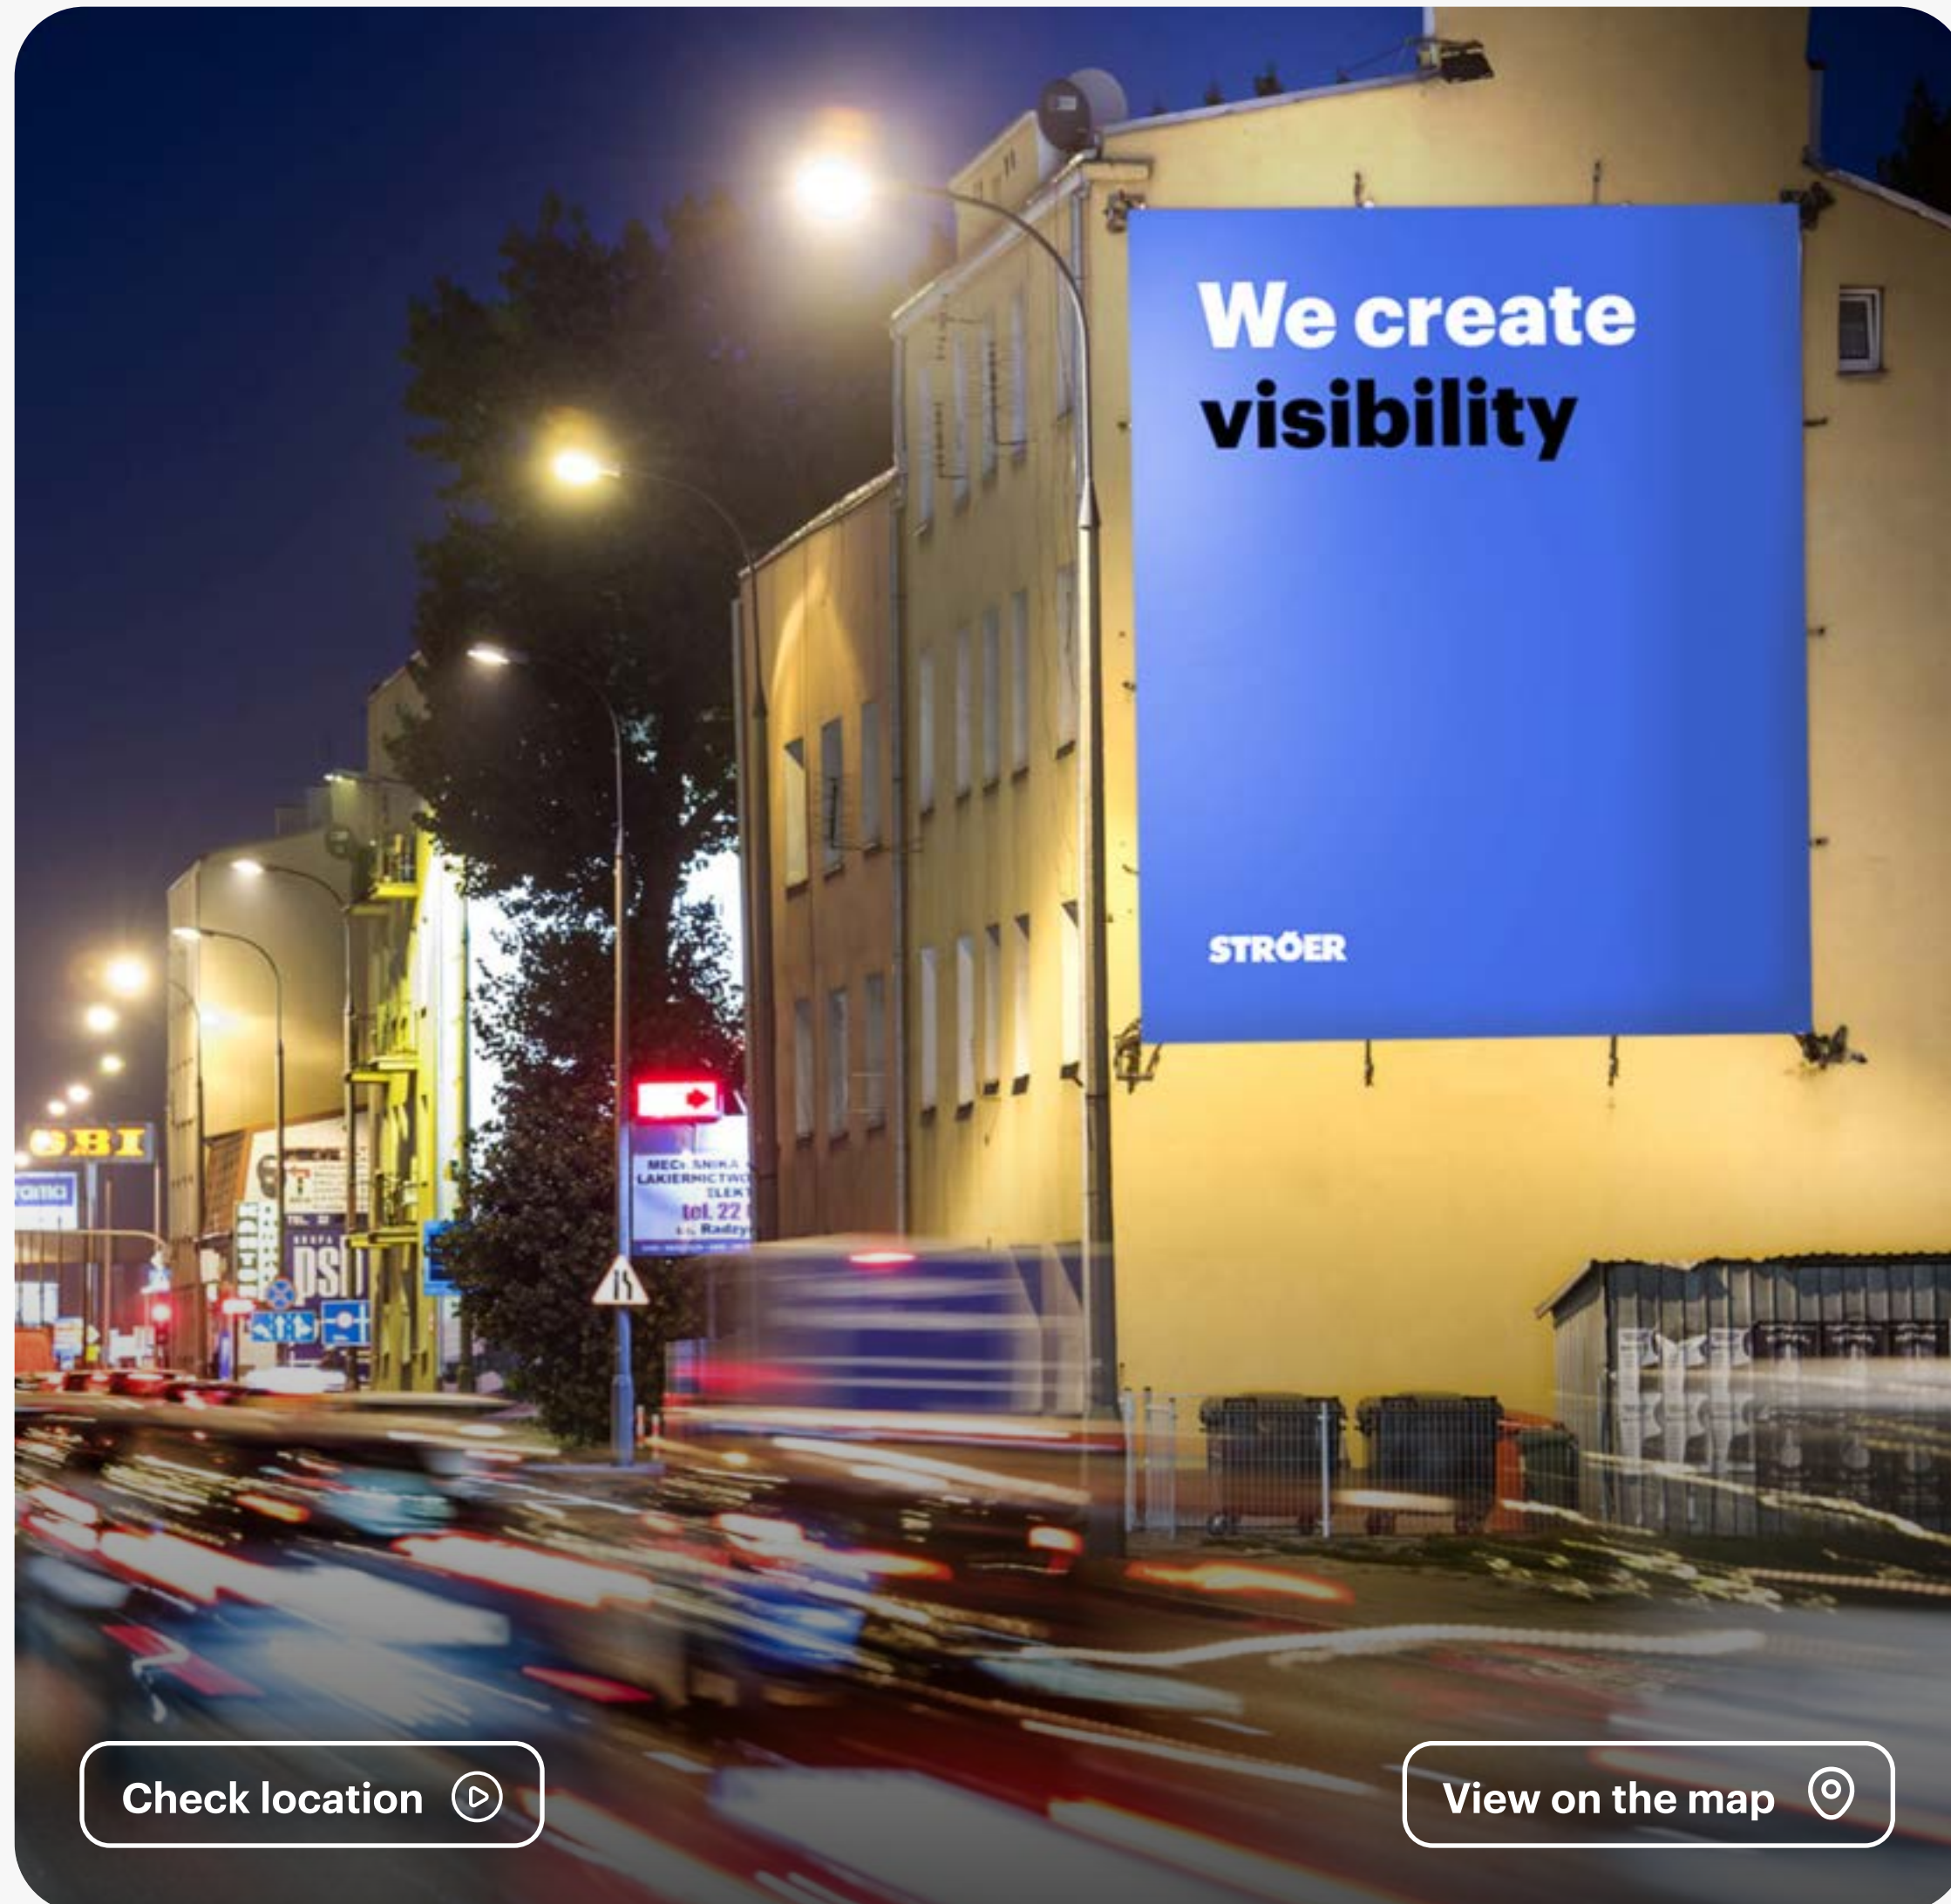

⁽²⁾ If the color pattern is not provided, we reserve the right to disclaim responsibility for accurate color reproduction.

⁽³⁾ The specified brands possess the necessary certifications, and their quality guarantees the desired standards for murals, including proper contrast, color saturation, and the ability to mix colors effectively
